

River Valley Birth Center

Verification of Insurance Benefits

It is important to understand the relationship between you and your insurance company. You are requesting your insurance company (who you have an agreement with) to pay for claims for your healthcare. This form is to facilitate you being able to ask the important questions to understand your coverage better so that you may anticipate your out-of-pocket expenses when seeking maternity care. River Valley Birth Center is not responsible for your insurance company's decisions to cover or not cover the services provided. Please call your insurance company and ask them for the following information. When completed, return to River Valley Birth Center. If you have any questions or need additional assistance, let us know. If you get answers from your insurance company that are unexpected or disappointing (such as if they state we are not covered), please let us know and we can follow-up on any information that seems to be incorrect and get you answers.

This form should be used by clients with commercial/private/employer provided insurance. Should you have Medicaid or Medicaid Replacement (such as UCare or BluePlus, etc), let us know and we can verify coverage. Medicaid plans have less variation in networks and requirements, so they are more predictable.

After filling out this form, please return to the birth center.

Practice information (you will need this information so they can look us up in the system):

River Valley Birth Center
